

# PUBLIC NOTICE

**File Number: NRS 14.281**

---

Pursuant to Chapter 0400-4-7 of the Department's rules, the proposed activity described below has been submitted for approval under an Aquatic Resource Alteration Permit and §401 Water Quality Certification. This notice is intended to inform interested parties of this permit application and to ask for comments and information necessary to determine possible impacts to water quality. No decision has been made whether to issue or deny this application.

**APPLICANT:** Charles Crews  
P.O. Box 682529  
Franklin, TN 37068  
(615) 210-3570

**LOCATION:** Located on Pewitt Road, Williamson County, unnamed tributary to Copperas Branch; Latitude 35.904152 longitude -87.119598

**PROJECT DESCRIPTION:** The applicant proposes to repair and reconstruct an earthen embankment on a pond on an unnamed tributary to Copperas Branch in Williamson County. The purpose of the proposed work is to prepare a leak. The embankment will be re-constructed from available material adjacent to the exposing embankment. A new keyway will be excavated along the length of the embankment. The combination principal and emergency spillway will be repaired with limestone or durable sandstone. Out slopes will be top soiled, stabilized and then seeded and mulched.

**DEGRADATION:** In accordance with the Tennessee Antidegradation Statement (Rule 0400-40-03-.06), the division has determined that the proposed activities will result in degradation to water quality.

**WATERSHED / WATERBODY DESCRIPTION:** The proposed project lies within the Harpeth River Watershed. More information can be found at <http://www.state.tn.us/environment/water/watersheds/harpethriver.shtml>

Stream Name / ID #:	Unnamed tributary to Copperas Branch (Copperas Branch is an Exceptional Tennessee Water)
Ecoregion:	inner Nashville basin 71f
Stream Dimension:	impounded
Substrate:	impounded
Designated Use	Use Support
Fish and aquatic life	not assessed
Recreation	not assessed
Irrigation	not assessed

Livestock watering & wildlife not assessed

**PERMIT COORDINATOR:** Mike Lee

**FACTORS CONSIDERED:** In deciding whether to issue or deny a permit, the department will consider all comments of record and the requirements of applicable federal and state laws. In making this decision, a determination will be made regarding the lost value of the resource compared to the value of any proposed mitigation. The department shall consider practicable alternatives to the alteration. The department shall also consider loss of waters or habitat, diminishment in biological diversity, cumulative or secondary impacts to the water resource, and adverse impact to unique, high quality, or impaired waters.

**COMMENTING:** Persons wishing to comment on the proposal are invited to submit written comments to the department. Written comments must be received within **thirty days of the date that this notice is posted**. Comments will become part of the record and will be considered in the final decision. The applicant's name and permit number should be referenced. Send all written comments to the department's address listed below and to the attention of the permit coordinator.

**PUBLIC HEARING:** Interested persons may request in writing that the department hold a public hearing on this application. The request must be filed within the comment period, indicate the interest of the person requesting it, the reasons that the hearing is warranted, and the water quality issues being raised. When there is sufficient public interest in water quality issues, the department will hold a public hearing. Send all public hearing request to the department's address listed below and to the attention of the permit coordinator.

**APPEAL:** A permit appeal may be filed, pursuant to T.C.A. §§ 69-3-105(i) and Rule 0400-40-05, by the permit applicant or by any aggrieved person who participated in the public comment period announced by this notice. This petition must be filed within THIRTY (30) DAYS after public notice of the issuance of the permit. The petition must specify what provisions are being appealed and the basis for the appeal. It should be addressed to the technical secretary of the Tennessee Board of Water Quality, Oil and Gas at the following address: Tisha Calabrese Benton, Director, Division of Water Resources, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Ave, 12<sup>th</sup> floor, Nashville, TN 37243. Any hearing would be in accordance with T.C.A. §§69-3-110 and 4-5-301 et seq.

**FILE REVIEW:** The permit application, supporting documentation including detailed plans and maps, and related comments are available at the department's address (listed below) for review and/or copying.
